CASE NO. PUR-2022-00140

For revision of a rate adjustment clause, designated
Rider GT, under § 56-585.1 A 6 of the Code of Virginia

ORDER FOR NOTICE AND HEARING

On August 16, 2022, Virginia Electric and Power Company ("Dominion" or "Company") filed with the State Corporation Commission ("Commission") a petition ("Petition") to update the rate adjustment clause ("RAC"), designated Rider GT, pursuant to § 56-585.1 A 6 of the Code of Virginia ("Code"), the Commission's Rules Governing Utility Rate Case Applications and Annual Informational Filings of Investor-Owned Electric Utilities ("Rate Case Rules"),¹ and the directive contained in Ordering Paragraph (3) of the Final Order issued by the Commission on May 13, 2022, in Case No. PUR-2021-00083 (the "2021 RAC Order").² Through its Petition, the Company seeks to recover projected and actual costs related to certain electric distribution grid transformation projects that the Commission has approved as part of the Company's plan for electric distribution grid transformation projects ("GT Plan").³ Pursuant to Code § 56-585.1 A 7, the Commission must issue a final order regarding the Petition within nine months of filing.⁴

⁴ In its August 30, 2022, Memorandum of Completeness/Incompleteness, filed pursuant to 5 VAC 5-20-160 of the Commission's Rules of Practice and Procedure ("Rules of Practice"), 5 VAC 5-20-10 *et seq.*, the Commission's Staff ("Staff") found that upon granting the requested waivers, the Petition would be complete as of the date of filing. Accordingly, the statutory deadline for this matter is May 16, 2023.

The Petition explains that in Case Nos. PUR-2018-00100⁵ and PUR-2019-00154,⁶ the Commission approved Dominion's investments related to eleven GT Plan projects in years 2019, 2020, and 2021 ("Phase I").⁷ In the 2021 RAC Order, the Commission authorized the Company to recover projected and actual costs for ten of the Phase I projects through Rider GT.⁸ The projects include: (1) mainfeeder hardening, (2) targeted corridor improvement, (3) voltage island mitigation, (4) hosting capacity analysis, (5) the Locks Campus Microgrid, (6) physical security, (7) the Smart Charging Infrastructure Pilot Program, (8) telecommunications, (9) cyber security, and (10) customer education.⁹ The Petition states further that the Commission approved additional electric distribution grid transformation projects for the years 2022 and 2023 ("Phase II") in Case No. PUR-2021-00127.¹⁰ However, the Company states that it is not requesting to recover costs associated with Phase II projects through Rider GT at this time.¹¹

The Company states that the Commission approved Phase I projects up to the maximum amount of investment previously deemed reasonable and prudent by the Commission ("cost

caps").¹² The Company further represents that, should costs exceed such cost caps, the Commission directed that those costs would be incurred at the Company's risk; and it would be the Company's burden to demonstrate reasonableness and prudence for any such incremental investment.¹³ The Petition states that in the 2021 RAC Order, the Commission approved incremental costs over the cost caps related to two projects - the Locks Campus Microgrid and physical security - finding that the Company had proven that the projects remain reasonable and prudent with the addition of the incremental costs in excess of the cost caps.¹⁴ The Company states that it interprets this portion of the 2021 RAC Order as establishing new cost caps for those two projects.¹⁵

Dominion reports that seven of the ten Phase I projects authorized by the Commission for cost recovery in the 2021 RAC Order are progressing in line with the overall budgetary plan within the cost caps.¹⁶ The Company asserts that these costs are reasonable, prudent, and consistent with the Commission's prior determinations.¹⁷ The Company reports that three of the ten projects - targeted corridor improvement, hosting capacity analysis, and physical security - have projected costs that exceed the cost caps.¹⁸ The Company asserts that these three projects

are still reasonable to pursue, and requests the Commission find the incremental costs of these projects are reasonable and prudent.¹⁹

In this proceeding, Dominion has asked the Commission to approve Rider GT for the rate year beginning June 1, 2023, and ending May 31, 2024 ("2023 Rate Year").²⁰ The Company's RAC revenue requirement includes the Projected Cost Recovery Factor.²¹ The Company states that the Projected Cost Recovery Factor results in the operating income necessary for recovery of projected financing costs based on the expected investment balances as of June 1, 2023, as well as recovery of operations and maintenance costs and plant depreciation expense.²² The Company is requesting a Projected Cost Recovery Factor revenue requirement of approximately \$15,502,000.²³

If the proposed Rider GT for the 2023 Rate Year is approved, the impact on customer bills would depend on the customer's rate schedule and usage. The Company states that the implementation of the proposed Rider GT on June 1, 2023, will incrementally decrease the typical residential customer's monthly bill, based on 1,000 kilowatt-hours per month, by \$0.86 compared to the current Rider GT.²⁴ The Company proposes that the costs associated with Rider

Dominion requests a waiver, in part, of the requirements under Rate Case Rules 60 and 90 with respect to paper copies of certain Filing Schedule 46 materials.²⁷ The Company states that the Rate Case Rules require the Company to provide key documents supporting the proposed costs of the projects.²⁸ According to Dominion, the supporting documentation responsive to this requirement is voluminous and not easily viewed in hard copy format, and therefore the Company proposes to provide the documentation in electronic format only, while additionally providing the Commission one hard copy and a compact disc with the documentation in electronic format.²⁹ The Company states that this request for waiver is consistent with recent Commission orders granting similar limited waivers.³⁰

The Company also requests that the Commission waive, in part, the requirements under Rate Case Rules 60 and 90, with respect to paper copies of supporting calculations for the estimated annual revenue requirement required as part of Filing Schedule 46.³¹ The Company states that the Rate Case Rules require the Company to provide the estimated annual revenue

requirement over the duration of the proposed project by year and by project, including all supporting calculations and assumptions.³² The Company states that the calculations supporting the estimated annual revenue requirement calculation involve workpapers that are not easily converted to a printable version and are not easily reviewed in hard copy format.³³ Accordingly, the Company proposes to provide this documentation in electronic format only.³⁴ The Company states that this request for waiver is also consistent with recent Commission orders granting similar limited waivers.³⁵

Finally, in conjunction with the filing of its Petition, the Company filed the Motion of Virginia Electric and Power Company for Entry of a Protective Order and Additional Protective Treatment ("Motion for Protective Order") and a proposed protective order that establishes procedures governing the use of confidential information in this proceeding.

NOW THE COMMISSION, upon consideration of this matter, is of the opinion and finds that this matter should be docketed; the Company should provide public notice of its Petition; public hearings should be scheduled for the purpose of receiving testimony and evidence on the Petition; interested persons should have an opportunity to file comments on the Petition or to participate in this proceeding as a respondent; and the Staff should be directed to investigate the Petition and to file testimony and exhibits containing its findings and recommendations thereon.

We find that a Hearing Examiner should be assigned to conduct all further proceedings in this matter on behalf of the Commission, including ruling on the Company's Motion for

Further, for purposes of making the Petition complete and commencing this proceeding, we grant Dominion's requests to waive in part the requirements under Rate Case Rules 60 and 90 with respect to the filing of certain Schedule 46 materials.

On August 16, 2022, Virginia Electric and Power Company ("Dominion" or "Company") filed with the State Corporation Commission ("Commission") a petition ("Petition") to update the rate adjustment clause ("RAC"), designated Rider GT, pursuant to § 56-585.1 A 6 of the Code of Virginia ("Code"), the Commission's Rules Governing Utility Rate Case Applications and Annual Informational Filings of Investor-Owned Electric Utilities ("Rate Case Rules"), and the directive contained in Ordering Paragraph (3) of the Final Order issued by the Commission on May 13, 2022, in Case No. PUR-2021-00083 (the "2021 RAC Order"). Through its Petition, the Company seeks to recover

projected and actual costs related to certain electric distribution grid transformation projects that the Commission has approved as part of the Company's plan for electric distribution grid transformation projects ("GT Plan"). Pursuant to Code § 56-585.1 A 7, the Commission must issue a final order regarding the Petition within nine months of filing.

The Petition explains that in Case Nos. PUR-2018-00100 and PUR-2019-00154, the Commission approved Dominion's investments related to eleven GT Plan projects in years 2019, 2020, and 2021 ("Phase I"). In the 2021 RAC Order, the Commission authorized the Company to recover projected and actual costs for ten of the Phase I projects through Rider GT. The projects include: (1) mainfeeder hardening, (2) targeted corridor improvement, (3) voltage island mitigation, (4) hosting capacity analysis, (5) the Locks Campus Microgrid, (6) physical security, (7) the Smart Charging Infrastructure Pilot Program, (8) telecommunications, (9) cyber security, and (10) customer education. The Petition states further that the Commission approved additional electric distribution grid transformation projects for the years 2022 and 2023 ("Phase II") in Case No. PUR-2021-00127. However, the Company states that it is not requesting to recover costs associated with Phase II projects through Rider GT at this time.

The Company states that the Commission approved Phase I projects up to the maximum amount of investment previously deemed reasonable and prudent by the Commission ("cost caps"). The Company further represents that, should costs exceed such cost caps, the Commission directed that those costs would be incurred at the Company's risk; and it would be the Company's burden to demonstrate reasonableness and prudence for any such incremental investment. The Petition states that in the 2021 RAC Order, the Commission approved incremental costs over the cost caps related to two projects - the Locks Campus Microgrid and physical security - finding that the Company had proven that the projects remain reasonable and prudent with the addition of the incremental costs in excess of the cost caps. The Company states that it interprets this portion of the 2021 RAC Order as establishing new cost caps for those two projects.

Dominion reports that seven of the ten Phase I projects authorized by the Commission for cost recovery in the 2021 RAC Order are progressing in line with the overall budgetary plan within the cost caps. The Company asserts that these costs are reasonable, prudent, and consistent with the Commission's prior determinations. The Company reports that three of the ten projects

- targeted corridor improvement, hosting capacity analysis, and physical security - have projected costs that exceed the cost caps. The Company asserts that these three projects are still reasonable to pursue, and requests the Commission find the incremental costs of these projects are reasonable and prudent.

In this proceeding, Dominion has asked the Commission to approve Rider GT for the rate year beginning June 1, 2023, and ending May 31, 2024 ("2023 Rate Year"). The Company's RAC revenue requirement includes the Projected Cost Recovery Factor. The Company states that the Projected Cost Recovery Factor results in the operating income necessary for recovery of projected financing costs based on the expected investment balances as of June 1, 2023, as well as recovery of operations and maintenance costs and plant depreciation expense. The Company is requesting a Projected Cost Recovery Factor revenue requirement of approximately \$15,502,000.

If the proposed Rider GT for the 2023 Rate Year is approved, the impact on customer bills would depend on the customer's rate schedule and usage. The Company states that the implementation of the proposed Rider GT on June 1, 2023, will incrementally decrease the typical residential customer's monthly bill, based on 1,000 kilowatt-hours per month, by \$0.86 compared to the current Rider GT. The Company proposes that the costs associated with Rider GT be allocated consistent with the methodology approved by the Commission in the 2021 RAC Order. The Company represents that it has calculated the proposed Rider GT rates in accordance with the same methodology used for those rates previously approved by the Commission.

Interested persons are encouraged to review Dominion's Petition and supporting documents in full for details about these and other proposals.

TAKE NOTICE that the Commission may apportion revenues among customer classes and/or design rates in a manner differing from that shown in the Petition and supporting documents and thus may adopt rates that differ from those appearing in the Company's Petition and supporting documents.

The Commission entered an Order for Notice and Hearing that, among other things, scheduled public hearings on Dominion's Petition. On March 21, 2023, at 10 a.m., a Hearing Examiner appointed by the Commission will hold a telephonic hearing for the purpose of receiving the testimony of public witnesses, with no public witness present in the Commission's courtroom. On or

before March 15, 2023, any person desiring to offer testimony as a public witness shall provide to the Commission (a) your name, and (b) the telephone number that you wish the Commission to call during the hearing to receive your testimony. This information may be provided to the Commission in three ways: (i) by filling out a form on the Commission's website at scc.virginia.gov/pages/Webcasting; (ii) by completing and emailing the PDF version of this form to SCCInfo@scc.virginia.gov; or (iii) by calling (804) 371-9141. This public witness hearing will be webcast at scc.virginia.gov/pages/Webcasting.

On March 22, 2023, at 10 a.m., in the Commission's second floor courtroom located in the Tyler Building, 1300 East Main Street, Richmond, Virginia 23219, a Hearing Examiner appointed by the Commission will convene a hearing to receive testimony and evidence offered by the Company, any respondents, and the Commission's Staff on the Company's Petition.
